

Gabriel Bongailas

INFRASTRUCTURE - NETWORKS - CYBERSECURITY

gabriel@bongailas.mt · +356 7968 3934 · Malta

Computer Systems & Networks professional in Malta, working full time as Junior Cybersecurity Officer. Designs, builds and documents secure networking, Linux and virtualisation environments, supported by practical work in a regulated security environment.

EXPERIENCE

Junior Cybersecurity Officer, Governance & Planning

MALTA FINANCIAL SERVICES AUTHORITY (MFSA) · 2026 TO PRESENT · MALTA

Conduct vendor and third-party security posture reviews using UpGuard and ImmuniWeb, support cyber-risk assessments and compliance-driven documentation. Run vulnerability testing with Nessus, Kali Linux and website exposure tools (Mozilla Observatory, Internet.nl), with Microsoft Defender monitoring and CrowdStrike sandbox analysis.

Tools: ImmuniWeb, Nmap, Darktrace, Nessus, Kali Linux, Microsoft Defender, CrowdStrike

Pre-Graduate Officer, Cybersecurity Governance & Planning

MALTA FINANCIAL SERVICES AUTHORITY (MFSA) · 2025 TO 2026 · MALTA

Supported website vulnerability testing and phishing/IOC investigation, contributing to security assessments, audit activity and Darktrace monitoring visibility. Ran Linux-based security lab work including rogue access point simulation through pfSense, alongside Nessus, Kali Linux, Microsoft Defender and CrowdStrike sandbox testing.

Tools: Nmap, Darktrace, pfSense, Linux, Nessus, Kali Linux, Microsoft Defender, CrowdStrike

Junior IT Support Officer

PG PLC. · 2022 TO 2025 · MALTA

Managed Active Directory user lifecycle, Microsoft 365 and Intune provisioning, and configured 4G routers, access points and switching. Developed PowerShell automation and supported electronics repair and infotainment systems.

Tools: Microsoft 365, Cisco, PowerShell, Linux

Junior IT Assistant

NATIONAL ARCHIVES OF MALTA · 2022 · MALTA

Reimaged laptops and workstations to government-standard builds, managed Active Directory access and secure wireless provisioning, and introduced open-source tools to improve internal workflows.

Tools: Windows, Microsoft, Linux

EDUCATION

BSc (Hons) Computer Systems & Networks

MCAST · 2023 TO 2026 · MQF LEVEL 6 / HONOURS DEGREE

MQF Level 6 honours degree covering Linux administration, routing and switching, virtualisation, network security, digital forensics, SDN, cloud and DevOps. Dissertation: a Noise Pollution Monitoring system transmitting sensor data over LoRa to a Raspberry Pi for collection, storage and signal analysis.

[Programme syllabus](#)

Advanced Diploma in IT, Computer Systems & Networks

MCAST · 2021 TO 2023 · MQF LEVEL 4 / ADVANCED DIPLOMA

MQF Level 4 programme covering computer systems, routing, LAN/WAN, virtualisation, network administration, computer security, scripting and embedded systems, including work-based learning.

[Programme syllabus](#)

SKILLS

Infrastructure & networking

Network segmentation, VLAN architecture, firewall boundaries and operational design.

Platforms & virtualisation

Linux, Proxmox, OPNsense, TrueNAS, containers, self-hosted services and backup/recovery.

Security engineering

Exposure review, vulnerability testing, secure design and applied security validation.

Governance-informed design

Translating security controls and risk documentation into operable decisions.
